This Presentation contains summary unaudited condensed financial information for Adria Midco B.V. and its subsidiaries for the nine months ended September 30, 2023 and 2022. The statement of financial position for Adria Midco B.V. and its subsidiaries as at September 30, 2023 and as at September 30, 2022 as well as the condensed consolidated interim statements of profit or loss and cash flows for Adria Midco B.V. and its subsidiaries for the nine months periods then ended have been prepared in accordance with IFRS but have not been reviewed by our independent auditors. As a consequence, the summary condensed financial information presented is subject to potential change. If in connection with any review there is any material change to such summary condensed financial information, we intend to present a supplemental report detailing such change.

Certain financial measures and ratios related thereto in this Presentation, including EBITDA, Adjusted EBITDAal minus capital expenditure excluding capitalised leases, RGUs and ARPU (collectively, the "Non-IFRS Measures") are not specifically defined under IFRS or any other generally accepted accounting principles. These measures are presented here because we believe that they and similar measures are widely used in our industry as a means of evaluating a company's operating performance and financing structure. Adjusted EBITDAal represents Adjusted EBITDA further adjusted to exclude the impact of expenses that were capitalised as a result of the implementation of IFRS 16. Adjusted Capital Expenditure excluding capitalised leases represents Adjusted Capital Expenditure excluding the impact of right-of-use asset additions and, starting from 2021, the right-of-use asset modifications and prepayments. From 2023 Adjusted CAPEX related to spectrum licenses is presented in the amount of ash paid during the reporting period. Our management believes this information, along with comparable IFRS measures, is useful to investors because it provides a basis for measuring the operating performance in the periods presented. These measures are used in the internal management of our business, along with the most directly comparable IFRS financial measures, in evaluating the operating performance. These measures may not be comparable to other similarly titled measures of other companies and are not measurements under IFRS or other generally accepted accounting principles, and you should not consider such items as alternatives to net income (loss), operating income or any other performance measures derived in accordance with IFRS, and they may be different from similarly titled measures used by other companies. This presentation contains certain pro forma financial and operating data for the nine months and the last two quarters ended September 30, 2023 and 2022, giving effect to (i) the expected impact of synergies resulting fro

¹⁾ Where applicable data shown on like-for-like basis. United Media figure for 9M 22 exclude United Cloud, as it was separated from United Media from January 2023.

²⁾ Revenues for Nova Greece fiber network business amounted to €33.0m in 9M 2023, compared to €23.3m in 9M 2022.

Strong track record of profitable growth, despite inflationary pressure...

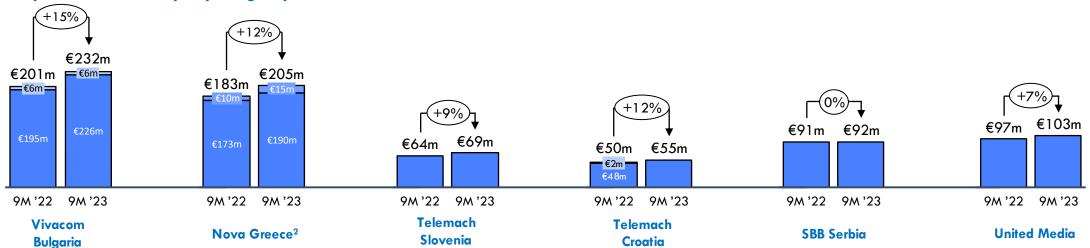

Adjusted EBITDAal and Adj. EBITDAal margin

Drivers of Adj. EBITDAal growth:

- attractive, value-added packages supporting sustained fixed and mobile gross margins
- continued price increases
- slower dynamic of advertising and PR costs
- lower programming rights costs
- increased advertising revenues, with minimal additional costs
- group wide disciplined cost management

Adjusted EBITDAal by key subgroups¹

¹⁾ Where applicable data shown on like-for-like basis. United Media figure for 9M 22 exdude United Cloud, as it was separated from United Media from January 2023.

²⁾ Adj EBITDAal for Nova Greece fiber network business amounted to €1.4.9m in 9M 2023 compared to €9.6m in 9M 2022.

...underpinned by disciplined investment

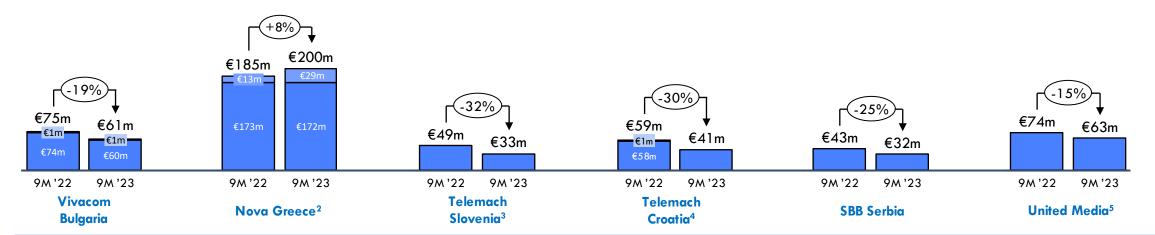

Capex (as % of revenue)

Drivers of CAPEX decline:

- radio network and site construction key to decreased mobile network investments
- decreased stock level of capitalised inventories
- different projects and timing differences impact on decreased investments in video head-end and IP equipment
- decreased investment in equipment, following relocation in 2022
- decreased investments in refurbishment & equipment of shops and offices
- savings in IT CAPEX

Capex by key subgroups¹

CAPEX decline driven by lower mobile network investments and reduction in capitalised inventory

- 1) Where applicable data shown on like-for-like basis. United Media figure for 9M 22 exclude United Cloud, as it was separated from United Media from January
- 2) The increase coming mainly from higher investments in fixed network expansion, higher sports content costs and higher acquisition costs related to sales commissions. CAPEX for Nova Greece fiber network business amounted to €28.5m in 9M 2023 compared to €12.8m in 9M 2022.
- 3) Capex decreased mainly due to lower investment in the mobile network (site construction and radio network) and decreased shock level of
- 4) Capex declined primarily due to lower investment in the mobile network (especially in radio network), as a result of investment dynamics.
- 5) The decrease coming from lower investment in TV equipment, following the relocation to new premises in 2022.

Positive trajectory of operating cash flow generation

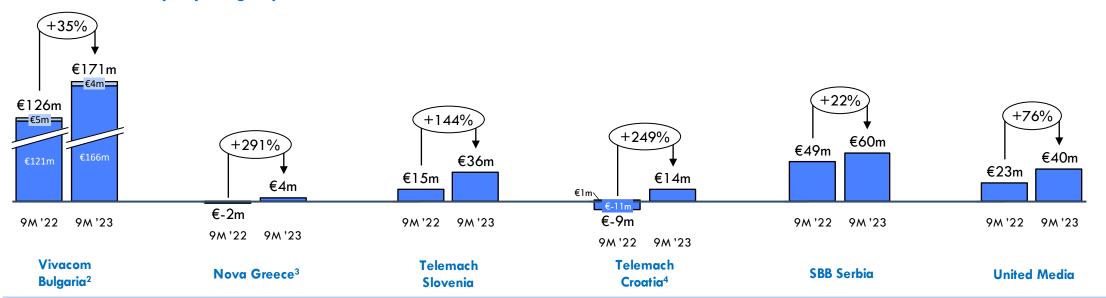

Cash conversion

Drivers of cash conversion growth:

- robust Adj. EBITDAal growth at Vivacom and Nova Greece
- increased mobile gross margin
- group wide cost management
- decreased mobile network investments (timing discrepancies) and reduction of capitalised inventory
- capex savings (IT projects)

Cash conversion by key subgroups¹

Increased positive cash conversion across all key subgroups, while Vivacom Bulgaria and SBB Serbia are the largest contributors

¹⁾ Where applicable data shown on like-for-like basis, United Media figure for 9M 22 exclude United Cloud, as it was separated from United Media from January 2023.

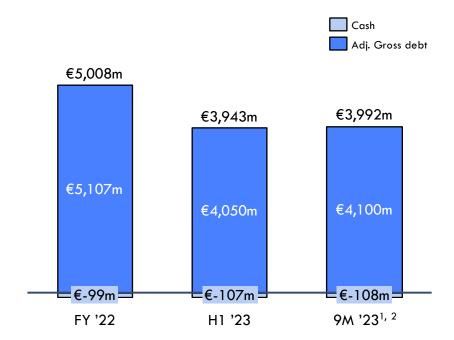

²⁾ Cash conversion increased mainly due to improved mobile gross margin and reduction in capitalised inventory (CPE inventory).

³⁾ Cash conversion for Nova Greece fiber network business amounted to -€13.6m in 9M 2023, compared to -€3.1m in 9M 2022.

⁴⁾ Lower investments in mobile network (especially in radio network) key for positive cash conversion.

Bulsatcom Acquisition Overview

Background

- In September 2022, we provided a €127m loan to Viva Corporate Sarl (a third party unrelated to United Group) to facilitate its acquisition of Bulsatcom EOOD ("BSC"), Bulgaria's #3 fixed telecom services provider
- Subsequently (as of 25 November 2022), we have set off a portion of this loan against i) €3m payment for our acquisition of Bulsatcom's mobile towers and ii) €87m prepayment of the purchase price for our acquisition of certain fibre network assets of Bulsatcom (transaction still pending regulatory approval and pending closing)
- On the 7th of November 2023, we signed an SPA for the acquisition of Bulsatcom via setting off the remainder of the loan plus accrued interest
- Transaction closing is subject to standard regulatory approvals, including by the Bulgarian CPC

Transaction Rationale

- Under United Group's stewardship, Vivacom has cemented its leadership position in the Bulgarian Telecommunications markets on the back of its innovative approach and relentless focus on customer care and network quality
- The acquisition of Bulsatcom will allow us to broaden the perimeter of addressable households in Bulgaria and bring our in-demand products and services to Bulsatcom's customers
- This acquisition will also enable both Vivacom and Bulsatcom operations to better position in an extremely competitive Bulgarian pay TV market, where in addition to c. 250 independent pay TV operators, there is a strong and growing presence of the international content streaming giants such as Netflix, HBO, Disney, Amazon and others
- Bulsatcom's underperformance over the past few years is a direct reflection of the lack of investment in its network, products and services and we are therefore planning to begin its integration with Vivacom straight after the transaction closes, which we expect will significantly improve service quality for all affected households. Bulsatcom's clients will gain access to Vivacom's full portfolio of services: high-quality innovative products based on the latest broadband, DTH and 5G technologies
- The acquisition of Bulsatcom will bring approx. 570k RGUs within Vivacom's perimeter and is expected to add c.€21m of EBITDAaL in the first year post-Closing, on the back of identified cost synergies

Value accretive acquisition of one of Bulgaria's leading Pay-TV providers in line with United Group's strategy for expansion
